Mamata Machinery Reports Resilient Q3 & 9M FY26 Performance, Driven by Healthy Packaging Portfolio Performance

Ahmedabad, India – January 31, 2026: Mamata Machinery Limited ('Mamata' or 'the Company'), a leading machinery solution provider in the flexible packaging industry, announced its financial results for the quarter and nine-months ended December 31, 2025.

9MFY26 Highlights

REVENUE	EBITDA	PAT
15,925 Lakhs	1,816 Lakhs	1,504 Lakhs
⌚ 11% YoY	⌚ 1% YoY	⌚ 10% YoY

Q3FY26 Highlights

REVENUE	EBITDA	PAT
6,722 Lakhs	843 Lakhs	787 Lakhs
⌚ 8% YoY	⌚ 34% YoY	⌚ 10% YoY

Commenting on the results, Apurva Kane, Chief Executive Officer, said:

"Mamata Machinery has delivered a resilient performance during the nine-month period ended December 31, 2025, with Revenue from Operations for 9MFY26 registering a growth of 11% YOY. On a quarterly basis, Q3FY26 Revenue from Operations recorded a marginal decline of 8%. This quarterly lumpiness is inherent to our business, which is best assessed on a Trailing Twelve Months basis. On the profitability front, 9MFY26 EBITDA remained flat compared to the same period last year, while Q3FY26 EBITDA registered a decrease on account of lower gross margins (due to product-mix changes) during the quarter.

Operationally, the quarter was marked by a significant multi-machine order intake for our VFFS packaging machines from one of India's leading snacks and namkeen brands. This milestone reinforces our position as the preferred & leading indigenous packaging technology provider and highlights the widening market acceptance of our packaging portfolio beyond our flagship HFFS lines. We continue to put more thrust on our packaging division as the key growth driver for the business going forward.

Looking ahead, the Company is gearing up for major industry events such as Plast India 2026, where we will unveil our latest innovations in recyclable co-extrusion technology and demonstrate our converting and packaging solutions compatible with sustainable films. Additionally, Interpack 2026 in Düsseldorf will mark Mamata's maiden presence at this premier global packaging exhibition, showcasing our complete packaging technology portfolio to strengthen our international footprint.

The ongoing delay in resolution of the US tariff situation and India-US trade deal has temporarily impacted our American business and order intake. At the same time, expanding opportunities in domestic and other global markets, especially for our packaging portfolio is keeping us on track with our business plan for FY26 and beyond. Q4FY26 is expected to be an important period for scheduled deliveries in the packaging division."

About Mamata Machinery Limited:

Mamata Machinery Limited is a leading global provider of total flexible packaging machinery solutions, offering a comprehensive range of products across the value-chain, from co-extrusion to converting and advanced packaging machinery. With over 35 years of industry experience, Mamata has established itself as a trusted engineering enterprise, boasting more than 5,000 machine installations in 80 countries worldwide. The Company is renowned for its consistent innovation and numerous industry-first product introductions, delivering cutting-edge solutions that address the evolving needs of the flexible packaging sector. Mamata's commitment to technology, quality, and customer-centric design has made it a preferred partner for businesses seeking reliable and efficient flexible packaging solutions on a global scale.
